

PK 63002 EH

THE CONTINUOUS SLEWING SYSTEM INCREASES THE EFFICIENCY IN USE DURING THE CRANE'S ENTIRE LIFETIME.

LIFETIME EXCELLENCE

PROFITABLE HEAVY-DUTY CRANE TECHNOLOGY

- More lifting power due to E-HPLS
- Maximum utilisation of the working range thanks to HPSC
- Additional applications due to Power Link Plus
- Continuous slewing for increased efficiency and speed
- Increased operating times due to low maintenance extensions system

FIRST-RATE IN DESIGN AND PERFORMANCE

Coating technology

Top quality surface protection at a glance

The KTL coating lays the foundation for a perfect surface protection. Afterwards the components are either coated in the powder-coating facility or are finished with a two-components-topcoat. High value retention and excellent corrosion protection for the whole life of a crane.

Power Link Plus

High variety of uses

With the 15-degree reverse linkage system, you can reach through low door openings and also work inside buildings. Heavy crane work – even in difficult conditions.

Low-maintenance extension system

Reduces service time

With sliding elements made of synthetic material and the high-quality KTL coating, this boom system significantly simplifies service performed by the operator. This saves time and money – and protects the environment.

HPSC

Maximum utilisation of the working range

The variable stabiliser positioning of the High Performance Stability Control System makes it possible to utilise the lifting capacity to the maximum. It enables working within tight spaces.

High Speed Extension

For efficient assignments

The High Speed Extension speeds up the extension boom system. Crane works faster and more efficiently.

Radio remote control

Dialogue with the operator

PALFINGER radio remote controls are equipped with linear lever or cross lever and provide the greatest possible comfort for the operator. All EH models with LED-Display inform the crane operator about the different operating conditions.

Power Link cable winch

More comfort in cable winch operation

Characterised by low installation height, it is ideal for working inside buildings and transports with the crane boom unfolded. The Comfort Cable Routing reduces set-up times to a minimum.

Functional design

Practical and attractive

Robust plastic covers protect crane parts against dirt and damage. Better appearance and increased operational comfort – during the entire lifetime.

Continuous slewing system

Unrestricted movement

More efficient in operation due to faster loading cycles, since the crane can be slewed over a shorter distance. The crane works more efficiently and faster.

PERFECT DIMENSIONS

Technical specifications EN12999 HC1 HD4/B3

Max. lifting moment	59.4 mt/582.7 kNm	429740 ft.lbs	Stabiliser spread	8.6 m	28' 3"
Max. lifting capacity	22000 kg/215.8 kN	48500 lbs	Fitting space required (min. / max.)	1.56 m / 5' 1"	1.71 m / 5' 7"
Max. hydraulic outreach	20.4 m	66' 11"	Width folded	2.55 m	8' 4"
Max. manual outreach	25.1 m	82' 4"	Max. operating pressure	350 bar	5075 psi
max. outreach (with fly-jib)	30.4 m	99' 9"	Recommended pump capacity	from 80 l/min to 100 l/min	21.1 US gal./min 26.4 US gal./min
Slewing angle	endless		Dead weight (std.)	5040 kg	11110 lbs
Slewing torque 1 gear	4.5 mt/44.1 kNm	32560 ft.lbs			
Slewing torque 2 gears	7.0 mt/68.7 kNm	50640 ft.lbs
